Faculty Of Medicine - University Of Ruhuna

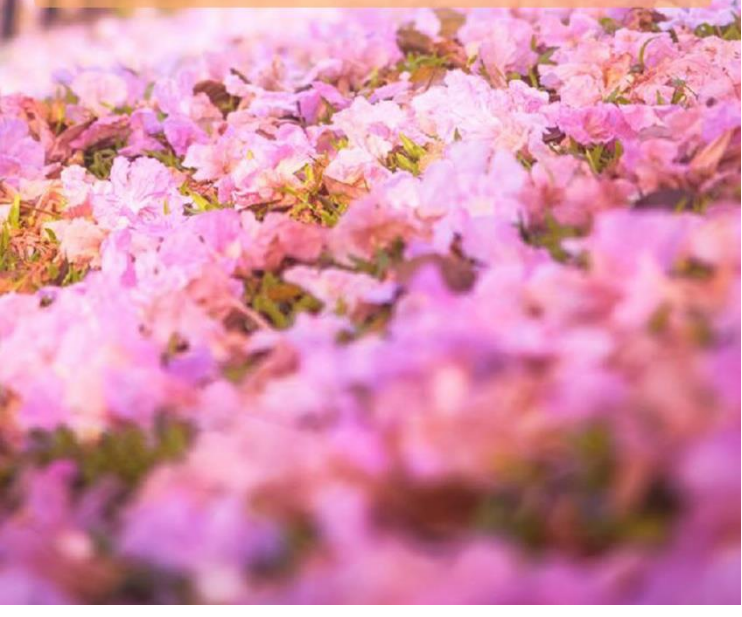

**Bachelor of Medicine & Bachelor of Surgery
degree programme**

MBBS (Ruhuna) - 2022/23 intake

(Full time - English medium)

The Faculty of Medicine, University of Ruhuna was established in Galle, in July 1980 as the 3rd medical faculty in the island. it's one of the most spacious medical faculties in Sri Lanka.

The faculty provides academic, research and service functions through its fifteen academic departments and three units that are recognized by the University Grants Commission (UGC). There are 02 teaching hospitals affiliated to the faculty.

Are we rich in resources?

Highly qualified academic staff and academic support staff are well-trained, competent and committed to teaching.

We have created and nurtured a very supportive environment for undergraduates.

Lectures theatres (five) are air-conditioned and fitted with quality sound systems, multimedia facilities and LED panels with seating capacity ranging from 160-385.

For small group discussions and student centered teaching each department has discussion rooms with seating capacity of 30-70 students. And equipped with smart boards, white boards and multimedia facilities and sound systems.

Student laboratories offer you an unparalleled practical experience in key pre and para clinical subjects and museums offer a fabulous collection of well-preserved perhaps the largest collections of specimens related to subjects in Pathology, Anatomy and Parasitology. Self-learning opportunity is well established.

Are we rich in resources?

Study areas with ample space in different locations for self-study.

Library with a seating capacity of 250 caters both undergraduate and postgraduate students.

Computer Aided Learning Laboratory with 80 computers, internet facilities and supportive staff.

Faculty offers round the clock **Free WiFi** to all the students.

Faculty Learning Management System offers you a wealth of information and it is the backbone of all the scheduled tasks.

We offers students a unique **Student Support Service** with mentoring, counselling, student advisory service, scholarships and a comprehensive regular system to obtain student feedbacks.

Health services through **university medical centre** and dedicated medical officers.

Clinical training

Qualified team of trainers in the extended Faculty from Ministry of Health and clinical departments (professorial units) supports, supervise and monitor your clinical journey through the clinical teaching learning activities.

The Teaching Hospital at Karapitiya is the third largest tertiary care hospital in Sri Lanka with 1880 bed capacity and is situated just across the road from the Medical Faculty. The Medical, Surgical, Paediatrics, Psychiatry Units and all most every finer speciality-units are in function.

Clinical training

The academic Department of Obstetrics and Gynaecology is situated in the premises of **Teaching Hospital Mahamodara** a 400 bed maternity hospital currently located 6 km away and soon will be relocated in its new premises closer to the faculty at just five minutes walking distance. The number of deliveries done in this hospital accounts for around 10,000 per annum and is the second highest number in the country.

Bope Poddala is the community training area with the population density of 71,000 attached to the medical faculty for field training.

Soon we will be commissioning ten storied professorial ward complex and a 12 storied building with fully furnished new lecture theatres, examination halls, tutorial rooms research laboratories and underground parking slots.

Theaching Hospital Karapitiya will be upgraded with a new Paediatric, OMF, Cancer treatment, Medical and Surgical complexes.

If you are a sports enthusiast, we have a rich blend of sports & recreational activities to offer!

Faculty has a playground, gymnasium, cricket nets, indoor badminton court, facilities for netball, badminton, table tennis, carom, cricket, elle, volleyball, basketball, draughts, chess, scrabble, swimming, weight training & strength development.

Open for tournaments, meets and games at interfaculty, inter university, national and international level and offer awards and colours at the university level.

You can experience multi-cultural multi-ethnic national and international celebrations, activities and performances by students throughout the year with fullest involvement of students' unions and following societies with full blessings of the academic staff.
